

Hello, I'm **Norah Alwadani**

I'm excited to share some of the apps I've created with you. Each one is designed to solve problems, inspire, and deliver a great user experience. Let's dive in!

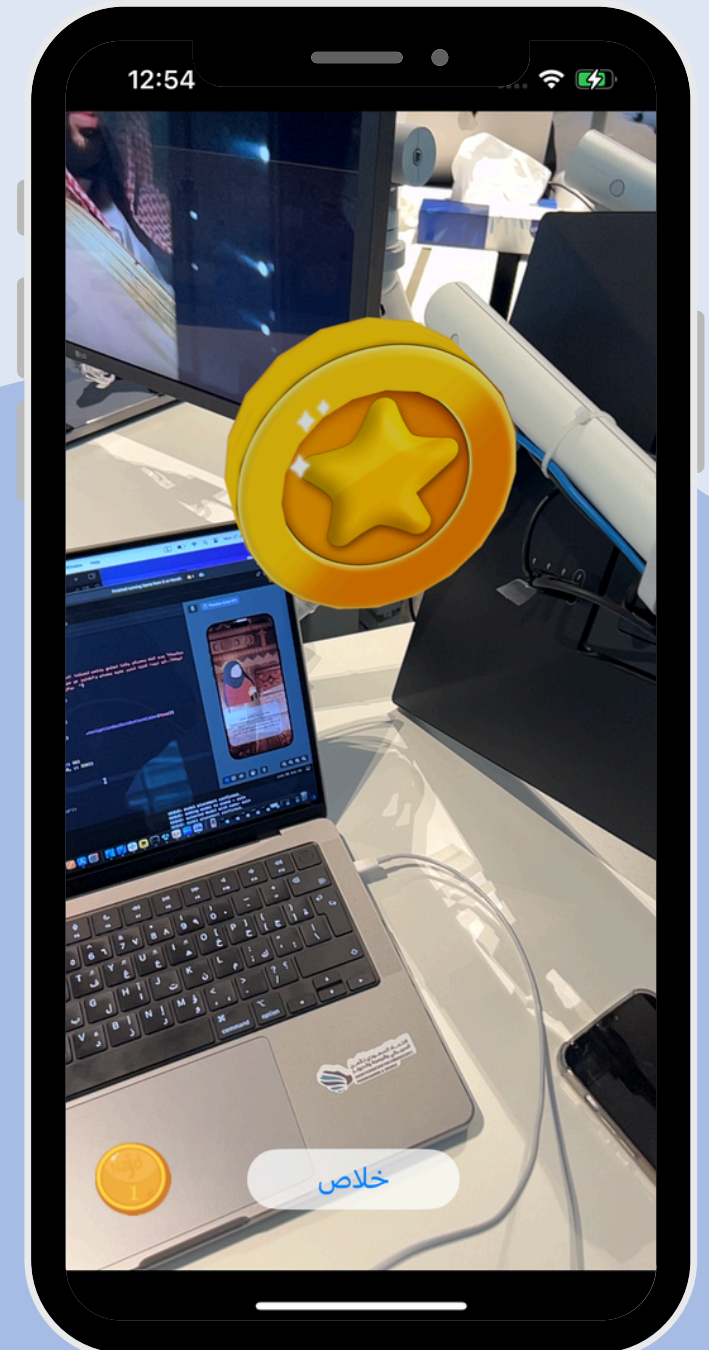

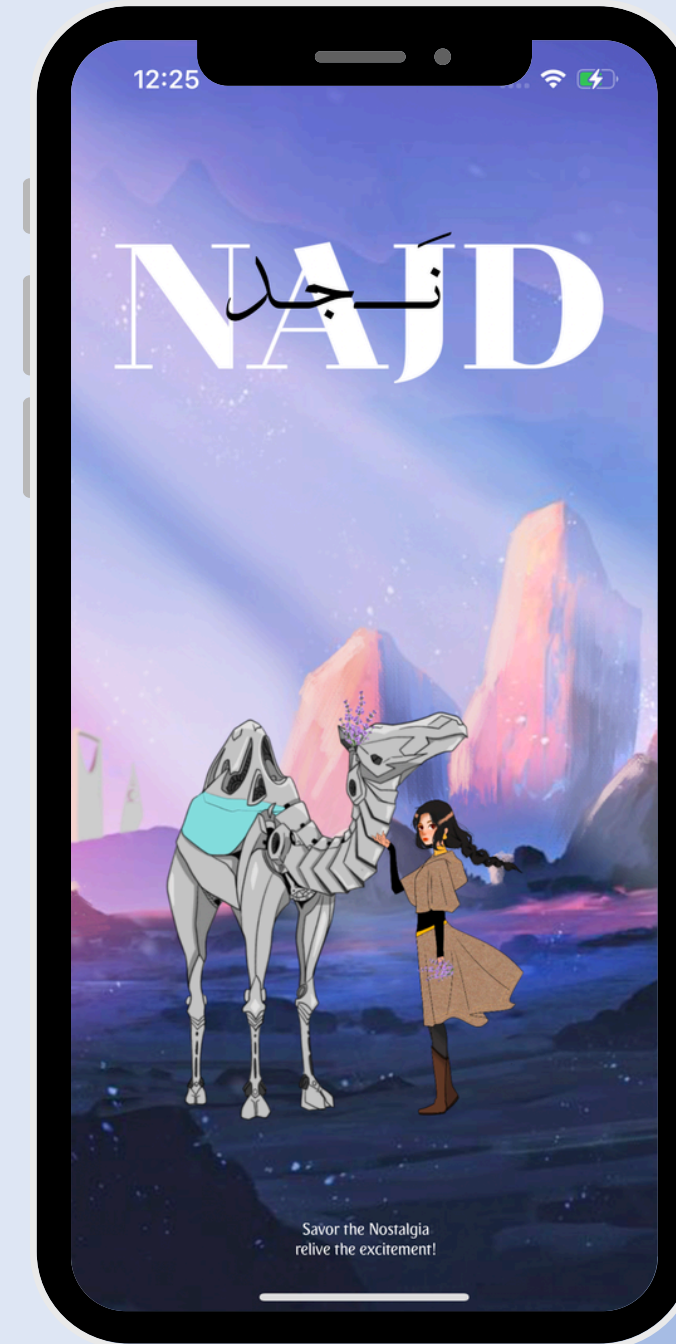

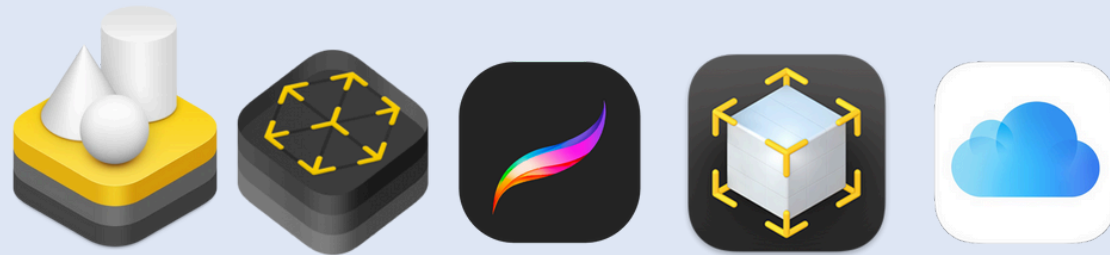

NAJD

A Game Inspired by an old culture game. First, the admin will hide the objects and the players will start to search, and the one who collects more objects wins!

Technologies:

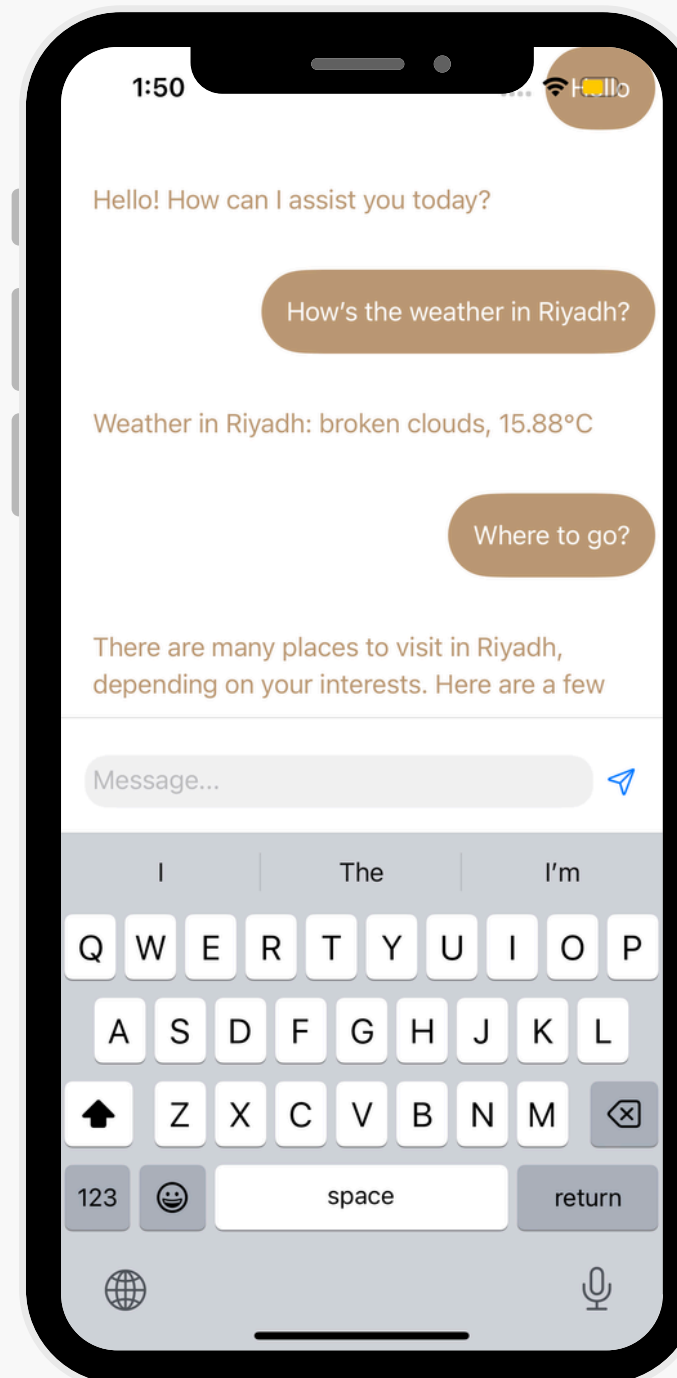

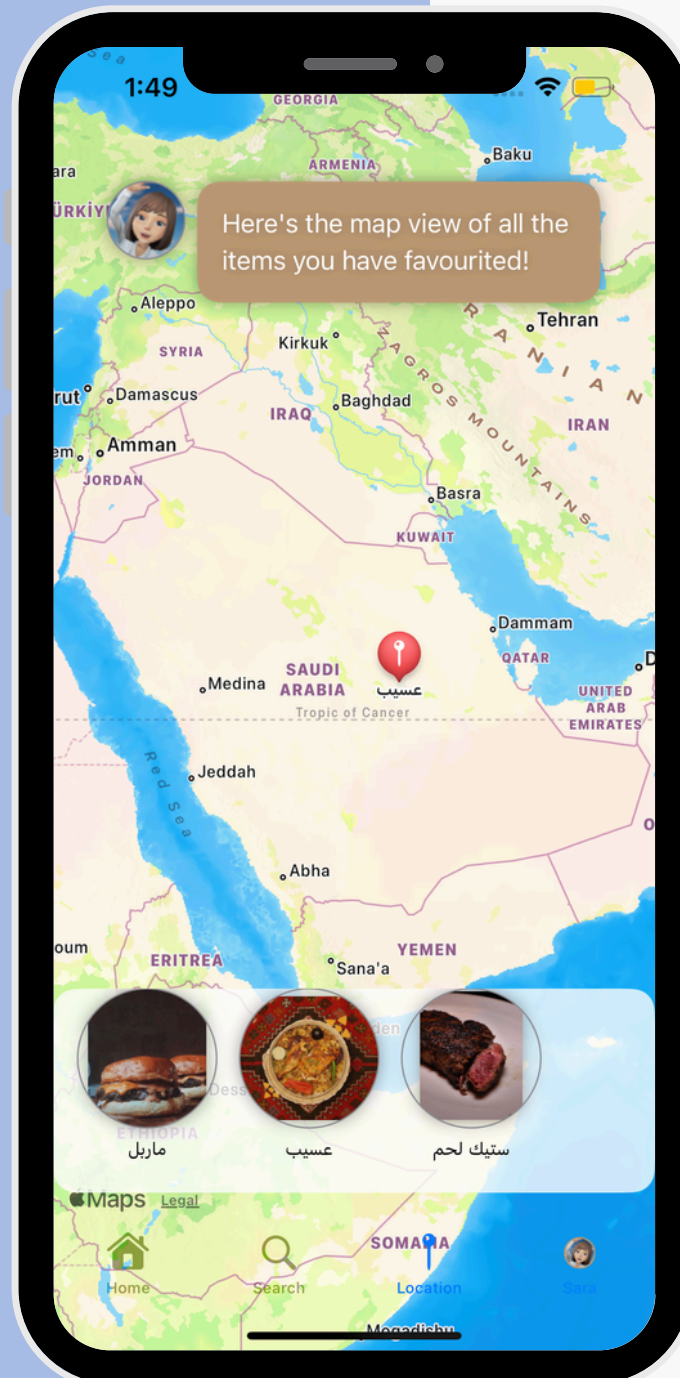

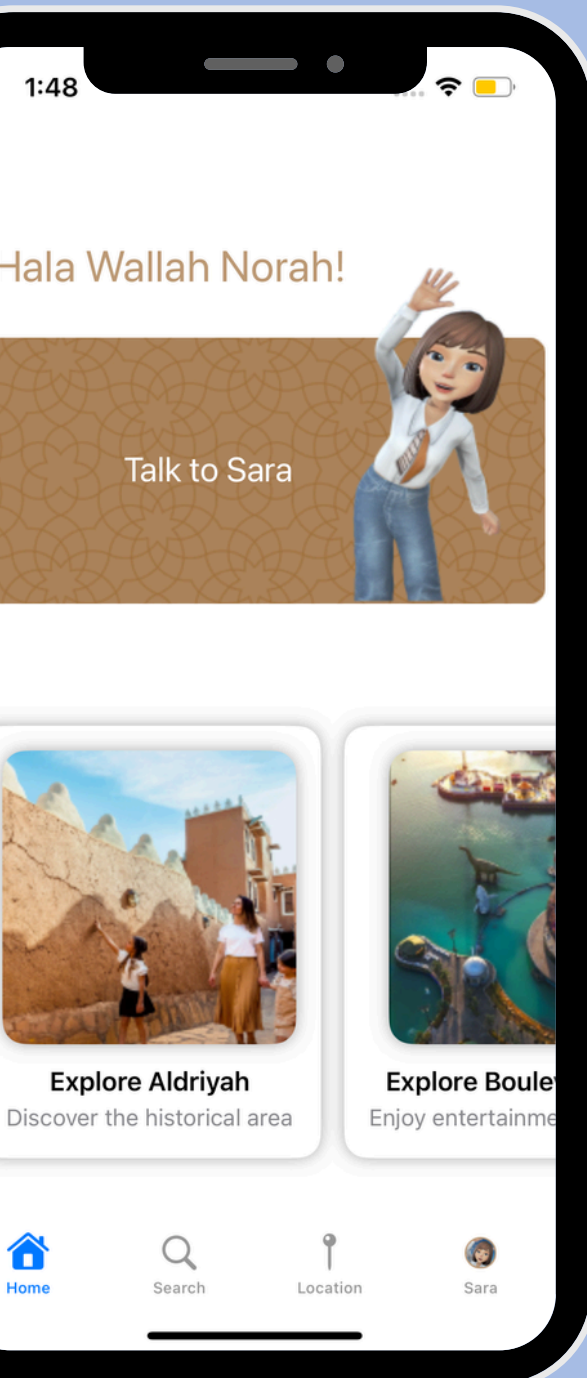

“SEBOG”

A Game Inspired by Camel Racing.
The Players near you will start to appear on
the screen and after you connect with them
the challenge will Start!

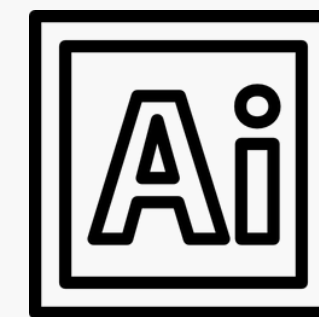

Technologies:

Experience the beauty of **Saudi Arabia** like never before with our innovative tourism app. Whether you're exploring vibrant cities or hidden gems, the app offers a seamless journey with AI-powered assistance. Chat with an intelligent guide to learn about the weather, discover top tourist spots, and even make reservations—all in one place. Your ultimate travel companion is here to make your adventures unforgettable.

Technologies:

Minute app

The Minute app is the ultimate experience for users seeking smart and effortless transportation. With a sleek and intuitive interface, it allows users to book rides easily and track drivers in real-time. Offering multiple payment options.

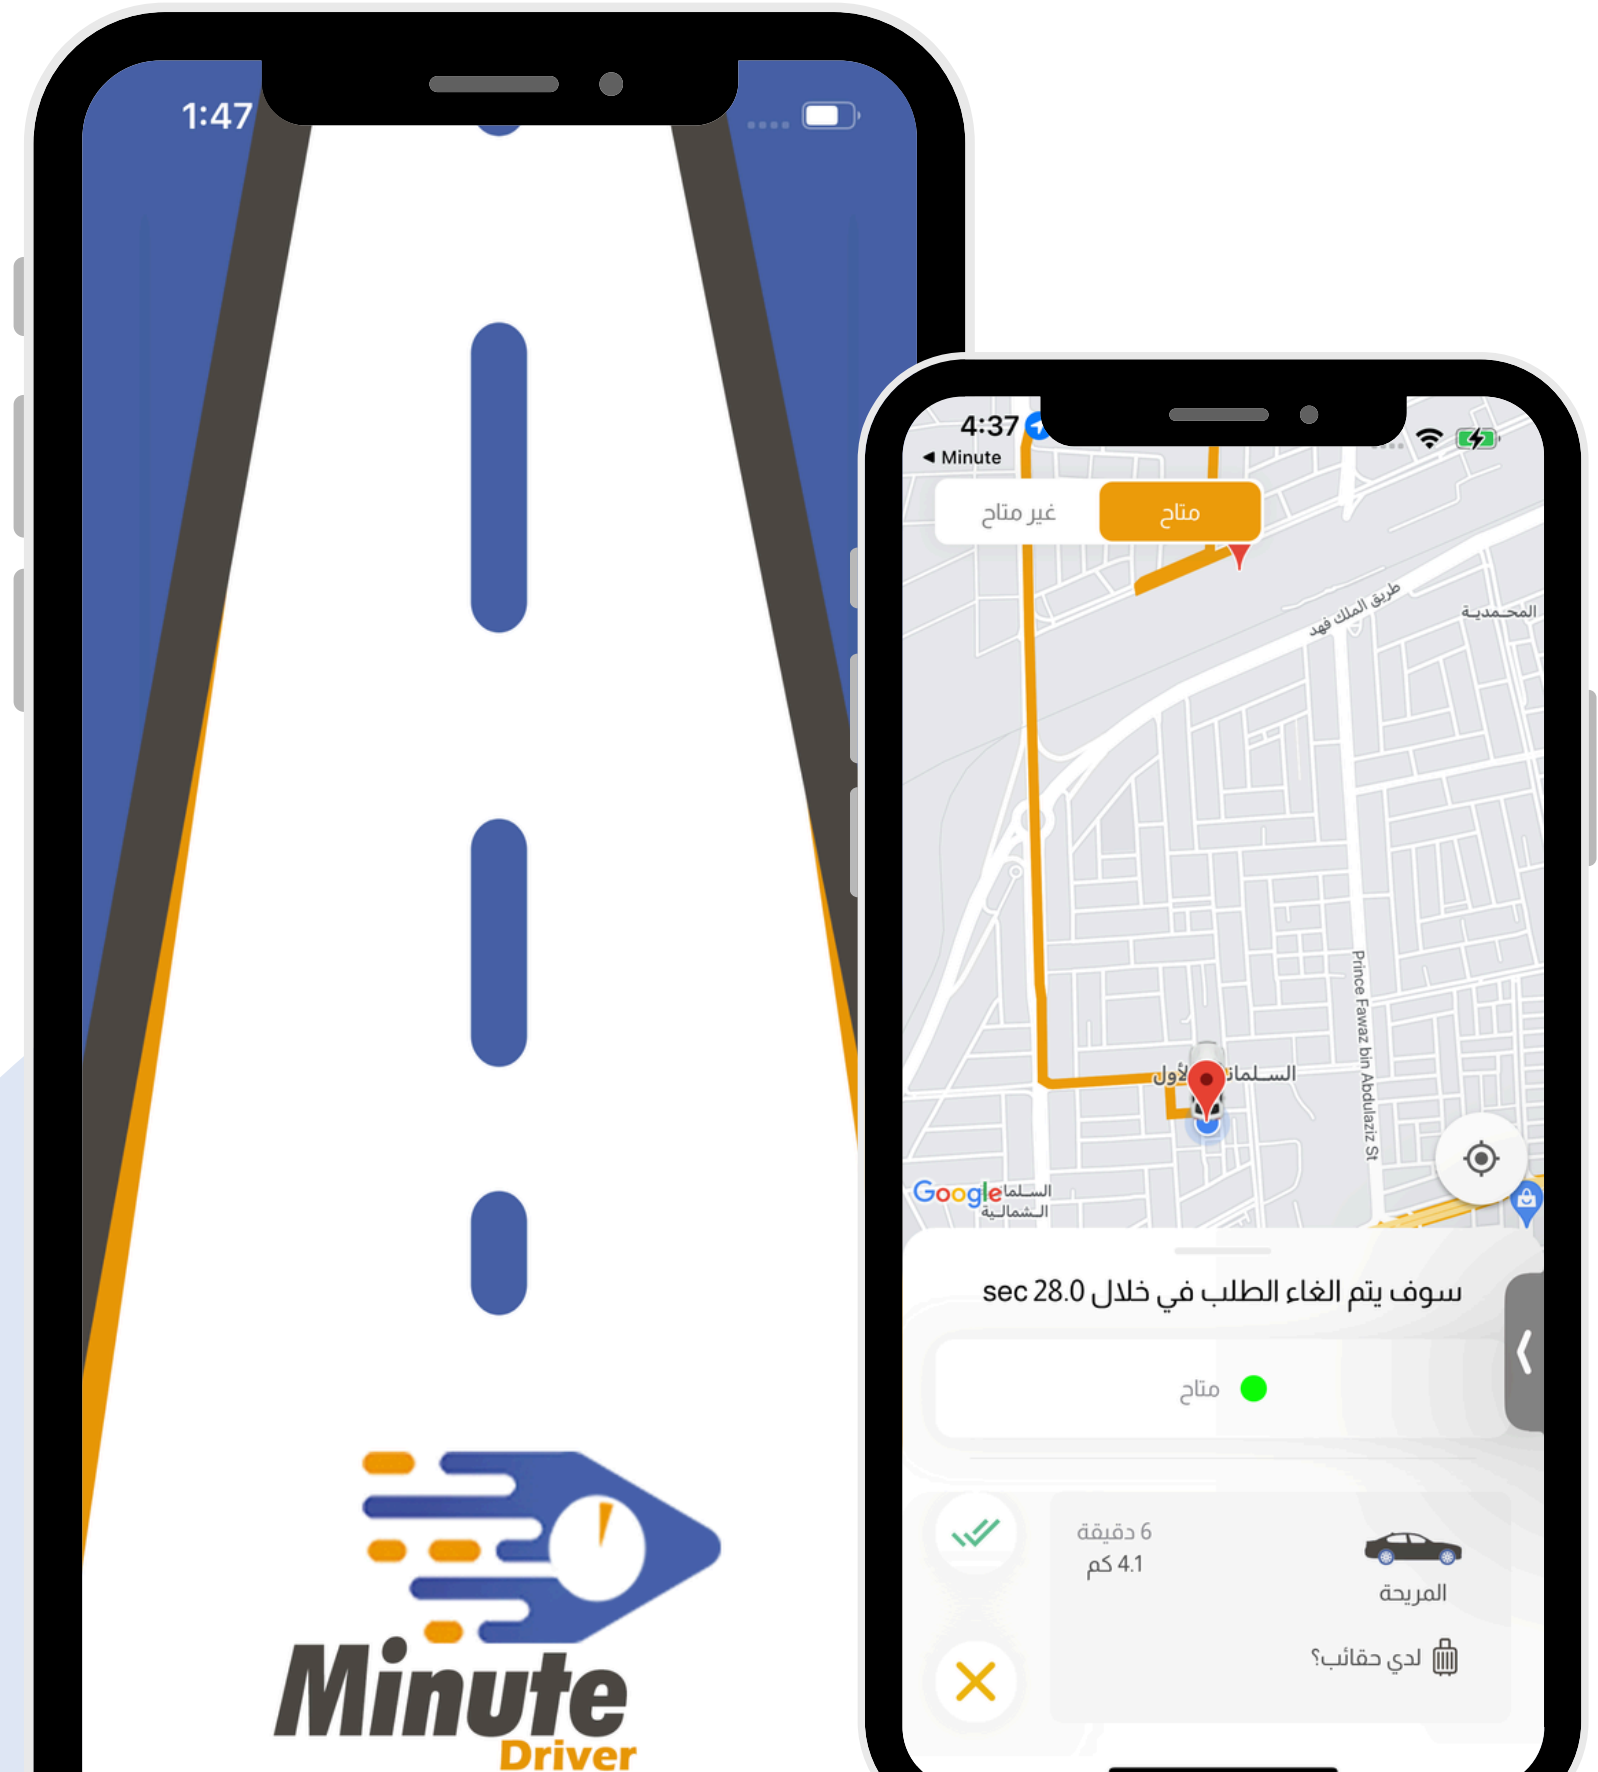

Technologies:

Minute Driver

The app is a powerful tool for drivers, combining efficiency and simplicity. From real-time trip management to accurate navigation and clear earnings summaries. With its user-friendly design and advanced features, Minute Driver ensures every trip is smooth and productive.

Technologies:

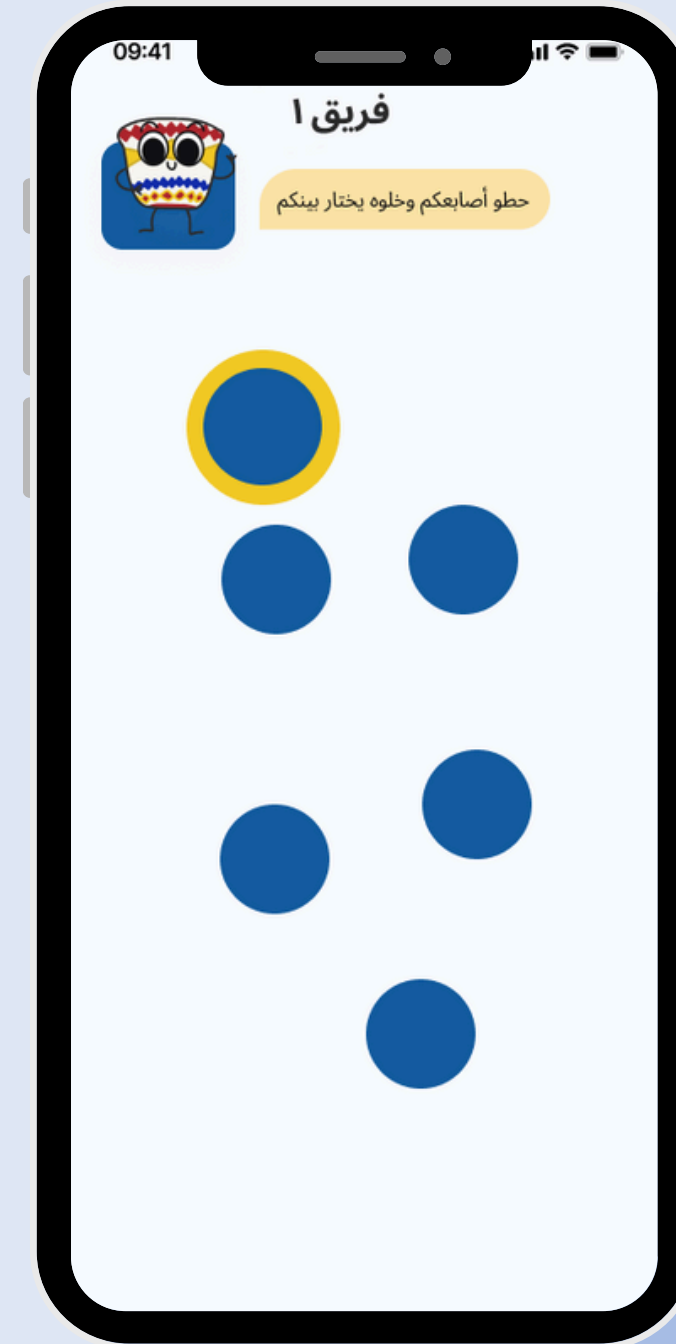

FINJANA

A Game about Saudi proverbs.
The teams will put their fingers on the screen and it will choose one finger randomly. A proverb will appear, and you must oblige to the request or you and your team will lose.

Technologies:

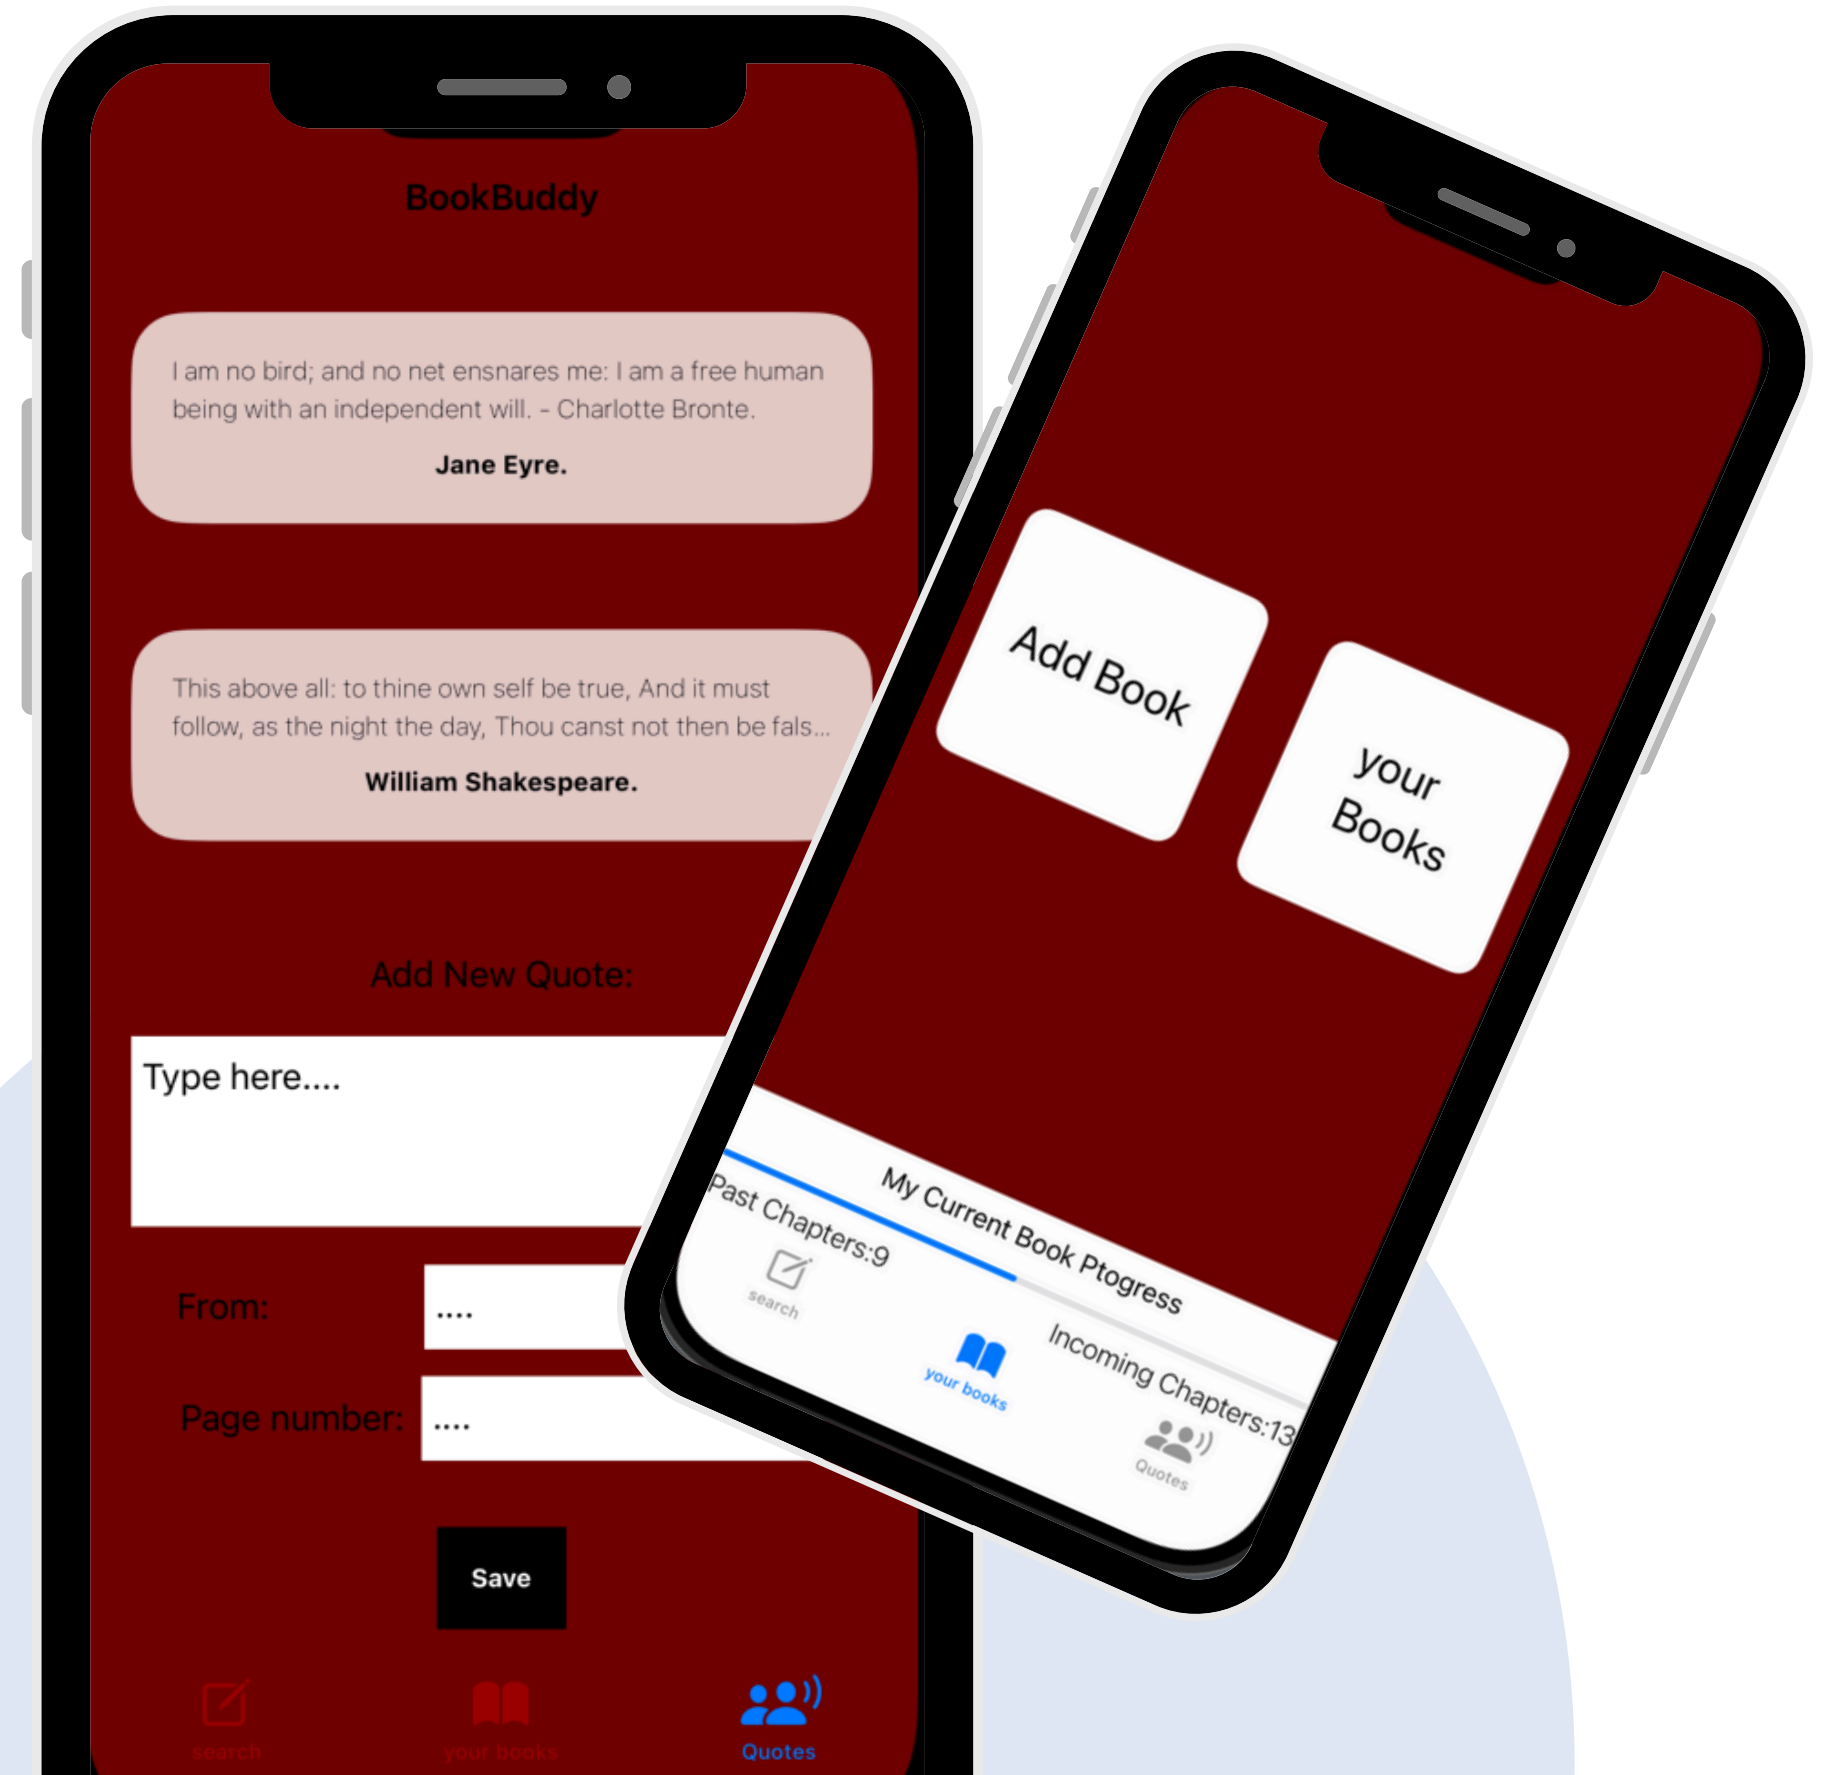

BookBuddy

An App helps you track your reading,
manage your books, add quotes you
loved of your favorite authors .

“Make reading a habit“

Technologies:

Thank You
